Hard Surface Cleaner, 5L

Product Overview

The Hard Surface Cleaner is specifically formulated to tackle tough dirt and grime on a variety of hard surfaces, including floors, walls, painted surfaces, and lino. Its powerful concentrated formula is effective for deep cleaning, while lighter soiling can be effortlessly addressed with a diluted solution using a trigger spray. This cleaner not only delivers a refreshing zesty lemon fragrance but is also biodegradable, making it an eco-friendly choice for conscientious consumers. Additionally, it offers a free-rinsing feature, resulting in a low smear finish for a sparkling clean appearance.

Features and Benefits

- Concentrated formula efficiently removes stubborn dirt from various hard surfaces
- Can be diluted for lighter cleaning tasks with a trigger spray
- Fresh lemon fragrance provides a more enjoyable experience
- Biodegradable formulation for eco-conscious cleaning
- Delivers a smudge-free finish
- Corrosive

Standards

- ISO 9001 Quality Management System
- ISO 14001 Environmental Management System

D2, Washing Up Liquid, 1L

Product Overview

Premium Green Detergent Washing Up Liquids are versatile, concentrated cleaning solutions designed for high-performance dishwashing and general cleaning tasks. Ideal for use in food handling environments, they work effectively on ceramics, dishes, utensils, and non-porous surfaces, ensuring hygiene and cleanliness without compromising safety. Whether in domestic kitchens or commercial settings like restaurants and hotels, these detergents are perfect for cutting through grease and eliminating odours with their fresh citrus fragrance. They are biodegradable, making them an environmentally conscious choice for various cleaning tasks. The detergents can be diluted for cleaning of large surfaces such as countertops and floors, offering flexibility and efficiency across different cleaning needs. Store in a cool, dry place, away from direct sunlight and extreme temperatures.

Key Features and Benefits

- Multi-purpose, concentrated solution for use in diverse environments, including domestic, commercial and industrial
- Safe for use in food prep and handling environments
- Works on ceramics, utensils, and other hard, non-porous surfaces
- Removes grease and neutralizes odours with a citrus scent
- Environmentally friendly and biodegradable

Price (£): 2.52 /-

Multi-Surface Polish, 750ml

Product Overview

The versatile wax-free polish offers a powerful cleaning solution designed for a variety of surfaces, including wood, stainless steel, glass, granite, and veneer, among others. Ideal for use in both domestic and commercial environments, this product effectively removes fingerprints and dulling films while delivering a sparkling finish. Its unique blend of oils ensures a thorough clean without leaving wax residue, preventing dullness on surfaces. Additionally, the polish is silicone-free, eliminating the risk of damage to lacquered finishes.

Key Features and Benefits

- Works well on multiple surfaces like wood, glass, stainless steel, granite, and veneer
- No wax content ensures surfaces remain bright and clear
- Contains no silicone, safeguarding lacquered surfaces
- Removes smudges and finger marks while cleaning
- Delivers a shine that is free from streaks

Compliance and Standards

- ISO 9001 Quality Management System
- ISO 14001 Environmental Management System
